SUMMARY

Informatics student at Universitas Gunadarma and Product Manager Intern at Mepo Indonesia, recognized with the Best Award for strategic thinking, a user-centric approach, and cross-functional collaboration. Experienced in defining product requirements, translating user needs into clear specifications, and driving feature development with engineering and stakeholders.

Brings a Quality Assurance background from the QA Engineer role at Mepo, which strengthens attention to requirement clarity, edge cases, and release quality from the product side.

Supported by a technical foundation in databases (SQL Server, MySQL), web development (C#/ASP.NET, Web API, JavaScript), and AI tools (LLM-based tools and Gemini API integration), enabling data-informed decisions and clear communication with developers. Continues to build product skills through Business Analyst & Product Strategy and Project Management training.

EDUCATION

Universitas Gunadarma | Informatics, Faculty of Industrial Technology | September 2022 – September 2026

- GPA: 3.41
- University training program (2023–2026): Database Management Systems, SQL Server, Web Programming, C# and ASP.NET, JavaScript, Application Development Design, Application Implementation and Development.

WORK EXPERIENCE

Product Manager Intern — Mepo Indonesia (PT. Multi Kreasi Travel Indo) | Mar 2026 – Oct 2026

Responsibilities:

- **Received the Best Award** at the end of the internship in recognition of strategic thinking, a user-centric approach, and cross-functional collaboration.
- **Defined product requirements** and translated user needs into clear specifications for the development team.
- **Drove feature development** through cross-functional collaboration with engineering and stakeholders.
- **Delivered user-centric solutions** that improved the user experience of the travel platform.

- **Applied a QA background to product work**, moving from QA Engineer to Product Manager Intern at the same company and bringing attention to requirement clarity and release quality.

Quality Assurance Engineer — Mepo Indonesia | Dec 2025 – Mar 2026 | East Jakarta (Hybrid)

Responsibilities:

- **Performed manual testing** on new and existing features of the travel platform to maintain system stability and functionality.
- **Validated REST APIs using Swagger UI and Postman**, checking endpoints, request parameters, response structures, HTTP status codes, authentication, and error handling.
- **Monitored API responses and network activity** with Chrome DevTools (Network tab) to trace issues between frontend and backend.
- **Designed and maintained test cases and test scenarios** to ensure adequate coverage for newly developed features.
- **Ran regression testing on new builds** before deployment to confirm existing features remained stable.
- **Logged and tracked defects in JIRA** with reproduction steps, expected vs actual results, and supporting evidence, coordinating with developers on resolution.
- **Verified frontend slicing implementations** against product requirements to ensure correct UI behavior.
- **Conducted User Acceptance Testing (UAT)** to confirm features met business requirements before release.
- **Collaborated with developers and product teams in Agile workflows**, including daily stand-up meetings.

Junior Web Programmer Intern — AKATRUST | Jan 2022 – Apr 2022 | Padang (On-site)

Responsibilities:

- **Supported the development of web application features** as part of the development team in an on-site internship.
- **Wrote and maintained code for web pages and application modules** under the guidance of senior developers.
- **Tested and fixed issues in assigned features** before handing them over for review.

CERTIFICATIONS & TRAINING

Product & Business

- **Certificate of Internship – Product Manager Intern (Best Award)** – Mepo Indonesia (2026)
- **Business Analyst & Product Strategy** – Dibimbing (2026)
- **Introduction to Project Management** (Product Management Short Class) – MySkill (2026)

AI

- **LLM-Based Tools & Gemini API Integration for Data Scientists** (Maju Bareng AI, 10 hours, final project) – Hacktiv8 Indonesia (2026)

Technical – Universitas Gunadarma

- **Application Implementation and Development** (2026): program specifications, structured and object-oriented programming, database use in applications, case study.
- **Application Development Design** (2025): system development methods, coding best practices, database design for applications.
- **JavaScript Programming Language Fundamental** (2026): variables, data types, control flow, arrays, object-oriented JavaScript.
- **SQL Server for Intermediate** (2025): complex queries, security management, indexing and query optimization, views, stored procedures, backup and recovery.
- **C# for Intermediate** (2025): ASP.NET, Razor MVC, ADO.NET, Web API with Entity Framework.
- **C# for Beginner** (2024): C# fundamentals, OOP, web development, debugging.
- **Fundamental Web Programming** (2023): Go, J2EE and Servlet, ASP.NET, CSS.
- **Fundamental DBMS** (2023): relational database concepts, DDL and DML in MySQL, SQL Server, and Oracle.

SKILLS

Product Management: Product Requirements, Product Requirement Document (PRD), Feature Development, Cross-functional Collaboration, User-centric Design, Stakeholder Communication

Business Analysis: Requirement Analysis, Product Strategy, Project Management Fundamentals

Quality Assurance: Manual Testing, API Testing, Regression Testing, User Acceptance Testing (UAT), Test Case Design, Defect Tracking (JIRA), Postman, Swagger UI, Chrome DevTools, Agile

Data & Databases: SQL, SQL Server, MySQL, Query Optimization, Views, Stored Procedures

Engineering: C#, ASP.NET (MVC, Razor), Web API, Entity Framework, JavaScript, HTML, CSS

AI Tools: LLM-based Tools, Gemini API Integration

Languages: Indonesian (Native), English (Advanced)
